

2024 NGA Pipeline Safety Regulation Workshop What You Should Know about Natural Gas Pipeline Safety Codes!

National Grid Melville Offices

25 Hub Drive, Melville New York 11747

NGA is pleased to bring the Pipeline Safety Regulation Workshop (Part 192) Program to you this fall. This 2-day in-person learning opportunity allows you to advance your knowledge of pipeline safety regulations applied to your operations while networking and sharing experiences with your peers.

The course provides a review and practical application of federal regulations in 49 CFR Parts 191 and 192 that apply to distribution and transmission piping systems, taking students through a "what, why & how" approach to federal pipeline safety regulations.

The class will be held at the National Grid Operations Center, Melville Long Island New York on October 29-30th from 8am-4pm each day.

This is an intense workshop learning experience which will include homework in the evening.

Course instructors are from The Blacksmith Group / P-PIC
