

BASCOM-TURNER INSTRUMENTS

Bascom-Turner Instruments

Bascom-Turner Instruments specializes in the design and manufacture of advanced gas detection equipment. Their product lineup includes:

- **Mobile Laser Detection System (MLDS):** Enables vehicle surveys at speeds up to 35 mph with 1 ppm resolution.
- **Gas-Rover:** Offers exceptional sensitivity for walking and mobile leak surveys, suitable for customer service and construction personnel.
- **Gas-Explorer:** Features advanced sensor technology and innovative software, making it a reliable and user-friendly combustible gas indicator.
- **Gas-Ranger:** A robust and versatile natural gas detector ideal for construction and maintenance applications.
- **CCD-201:** Detects a wide range of volatile organic compounds (VOCs), making it suitable for EPA Method 21 compliance.

In addition to these products, Bascom-Turner provides docking and calibration systems to ensure optimal performance of their detectors.

For maintenance and support, they offer a variety of parts and accessories, including filters, sensors, probes, hoses, and docking stations.

Their commitment to quality and customer satisfaction is evident in their dedication to producing user-friendly gas detectors and providing comprehensive support services.
