

Culver Company

Culver Company specializes in assisting electric, natural gas, and water utilities in educating their communities about safety and environmental sustainability. Their services include:

- **Regulatory & Audit Support:** Preparing clients for successful audits and program reviews.
- **Risk Management:** Developing practical solutions to mitigate risks and enhance financial sustainability.
- **Effectiveness Research:** Assessing program impact, identifying gaps, and driving continuous improvement.
- **Turnkey Programs:** Providing brand-aligned, RP 1162 compliant programs that improve safe behaviors among contractors, excavators, emergency and public officials, teachers, students, and customers.
- **Data Analytics:** Utilizing primary research and risk indicators to predict and prevent incidents.
- **Educational and Promotional Products:** Offering a comprehensive selection of industry-tailored educational materials and promotional products, such as booklets, brochures, posters, websites, videos, and more.

These services are designed to help utilities meet public safety, efficiency, and conservation goals
