

**RAGULATECH**

RagulaTech

RagulaTech is a company specializing in engineering and trenchless technology solutions. Their services include:

- **Trenchless Pipeline Rehabilitation:** Utilizing advanced techniques to restore aging, damaged, or leaking underground pipelines without the need for extensive excavation.
- **Cured-In-Place Lining (CIPL):** Employing the Starline® system to rehabilitate gas distribution and pressurized water pipelines, minimizing surface disruption.
- **Pipeline Inspection and Cleaning:** Conducting thorough inspections and cleaning of pipelines to ensure optimal flow and structural integrity.
- **Pigging Services:** Using pipeline inspection gauges (pigs) for cleaning, inspection, and maintenance tasks within pipelines.
- **In-Line Robotics:** Deploying robotic technologies for internal pipeline inspection and repair, enhancing safety and efficiency.
- **Environmental and Decommissioning Services:** Providing solutions for the safe decommissioning of pipelines and associated infrastructure, including environmental assessments and remediation.

These services are designed to extend the lifespan of pipeline infrastructure, enhance safety, and minimize environmental impact.
