<b>Position title:</b> Senior Analyst, Energy Efficiency	<b>Reports to:</b> Manager, Strategy & Compliance
<b>Company:</b> Unitil Service Corp.	<b>Department:</b> Customer Energy Solutions

## Our Company

More than a utility company, Unitil provides energy for life.

Our work helps keep homes comfortable, businesses thriving and communities connected. Unitil is an investor-owned public utility proudly serving Maine, Massachusetts and New Hampshire. We are dedicated to delivering energy to our customers safely and reliably.

Unitil is committed to creating an inclusive environment that welcomes and values the differences among all of our employees, customers, suppliers and the communities in which we live and conduct business. The continued success of Unitil is enhanced through initiatives that promote diversity and value our employees.

## Take advantage of a comprehensive benefits package.

Unitil offers competitive salaries, a consumer-driven health plan, dental and vision coverage, flexible work, company-paid holidays, a, robust, highly competitive retirement plan and educational assistance.

\*Note: Benefit offerings may differ between union and non-union employee groups

## Position Purpose

The Senior Analyst is a key member of the Energy Efficiency Administration and Compliance Team and provides analytical support and guidance related to internal controls, regulatory compliance, financial performance, vendor tracking and data validation related to a suite of energy efficiency programs and services within a dynamic and highly regulated utility environment. Coordinating with other departments within the Company as well as with other program administrators of the NHSaves and Mass Save energy efficiency programs, the Senior Analyst will be responsible for refining and carrying out complex procedures related to budgeting, forecasting, reporting, and responding to both routine and ad hoc reports and information requests under the supervision of the Manager of Strategy and Compliance. The Senior Analyst identifies opportunities to manage costs, increase efficiency within the department, and ensure both internal and external deliverables are executed on time and with a high degree of accuracy.

## Qualifications

Bachelors or Masters degree in a quantitative discipline preferred, preferably economics, statistics, or mathematics; though candidates with extensive and relevant experience will also be considered. A minimum of four years of directly applicable professional experience in a utility or regulatory environment; strong analytical and organizational skills, strong oral and written communication skills, and advanced computer skills in Microsoft Excel. Extremely detail oriented, organized, self-starter and flexible.

Unitil is an Affirmative Action/Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to sex, gender identity, sexual orientation, race, color, religion, national origin, disability, protected veteran status, age, or any other characteristic protected by law.
