Unitil

Job Posting

Position Title: **Supervisor, Gas Service**	Reports to: Manager, Gas Distribution
Company: Northern Utilities / Portland DOC	Department: Operations

Position Purpose

Responsible for the effective supervision of personnel and equipment used for the installation and servicing of customer appliances and other gas utilization equipment; the fabrication and installation of meter fits and customer metering; the inspection and repair of company piping systems; and the oversight of emergency first responders including the restoration of gas facilities during system emergencies. Also responsible for the design and completion of projects in accordance with company standards, state and federal codes, while ensuring the reliable, efficient and safe delivery of gas distribution service to customers. Responsible for the planning and scheduling of such projects to ensure timely completion and within acceptable budgetary tolerances. Professionally interact with customers, regulatory authorities, and employees to ensure the company satisfactorily meets their needs.

Qualifications

- Associates Degree in Engineering, Business or equivalent work experience.
- 7 years of progressively responsible experience, including proven supervisory experience.
- Must accept supervisory standby on rotation basis.
- Must reside within a specified geographic area and be available for duties during times of system emergencies.
- Must posses Operator Qualification (O.Q.) certification based upon the requirements set forth in D.O.T. 49 CFR 192, Subpart N
- Licensed Plumber or Gas Fitter (Journeyman or Master License)

Unitil is an Affirmative Action/Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to sex, gender identity, sexual orientation, race, color, religion, national origin, disability, protected veteran status, age, or any other characteristic protected by law.
